1. New casernes and depots are now being built for the Volksarmee in Uckermark. The billets allegedly are to be sufficient to hold 50,000 men. Tank units in the area are already equipped with T-34 tanks. Russian soldiers and officers are attached to the Volkspolizei. At least one Russian soldier is attached to each tank crew. More attention is being paid to discipline. Strict rules are in force concerning saluting and the relationship between enlisted men and officers. Separation of enlisted ranks from commissioned and non-commissioned officers is enforced outside the training area in the messhall and theaters.
2. Former Luftwaffe airfields are being re-activated. Their runways are being lengthened. New airfields are being constructed; one is near Torgelow on the Uecker.
